To whom it may concern

I deem it a deep pleasure to recommend one of the outstanding students in our department, Hamed Asadi who aspires to apply for a Ph.D. program at your university. I have known him for nine years as my MSc student and a research assistant, during which I have observed his intelligence and eagerness to learn. I rank him among the top 5% of graduate students.

On a personal level, he is a hardworking, determined, dedicated, and enthusiastic person in his career. Based on his demonstrated abilities, familiarity with various scientific methods, and willingness to learn, I am sure that he would do his best to accomplish any task assigned to him. Therefore, I sincerely recommend Hamed Asadi for your available program, as I have no doubt that he will be the best choice.

Please do not hesitate to contact me if you need any further information regarding Mr. Asadi.

Best Regards

Ali Reza Soffianian
